

KÖGEL

NOVUM: LIGHT & STRONG

THE KÖGEL TRIAL TRAILER

KÖGEL BOX LIGHT

NOVUM generation:

Low tare weight of approx. 6,100 kg (basic equipment) and therefore 750 kg more payload than a standard box dry freight box body

Extremely impact-resistant and easy to clean, strong walls made of 20-mm plywood composite panels with GFRP coating and 30-mm-thick floor with 5,460-kg forklift axle load

Perfect insulation thanks to the 40-mm-thick insulating roof made in our own factory using high-quality, enhanced, 100% CFC-free special foam

Permanent protection from corrosion thanks to the nano-ceramic technology plus cathodic dip-paint coating followed by UV coating of the entire vehicle frame

Low-maintenance, directionally stable and reliable Kögel trailer axle KTA: The unique “double suspension”, made up of a soft rubber bearing and a spring steel wishbone, not only enhances the driving characteristics of the trailer, but also reduces tyre wear

Increased impact protection with protective rubber bumpers and a transverse Delta rubber profile on the frame end plate

KÖGEL BOX LIGHT – THE TRIAL TRAILER

YOUR PLUS – CUSTOMISATION ✓

VERSATILE INDIVIDUAL EQUIPMENT FOR VARIOUS APPLICATIONS

- ✓ **Optimally protected from damage in daily use** by the inside of the front wall being fitted with a 12-mm-thick and 1,250-mm-tall resin-coated plywood panel
- ✓ For **optimal load-securing of partial loads**, combined steel anchor rails are mounted along the side walls at a height of 800 mm
- ✓ **Quick and time-saving turnover** thanks to the space-saving mechanical roll-up door, suitable for customs seals
- ✓ **Even more payload** with optional lightweight equipment such as aluminium rims, aluminium air storage containers, a side protection device made of aluminium as well as lightweight tyres
- ✓ **Increased safety on the road in traffic and prevention of turning accidents** thanks to flashing side marker lights
- ✓ **Kögel LUXIMA LED multi-chamber rear lights**
