KEEPING AN EYE ON YOUR TRAILER AT ALL TIMES!

KÖGEL TELEMATICS

Kögel Telematics will get your vote! The innovative telematics system allows you to keep a watchful eye on your trailer while it is on the road.

Your benefits at a glance*

- Reduce operating costs
- Increase efficiency
- Transparency and optimisation of logistics processes
- Transparency regarding vehicle status and availability
- Regulation and monitoring of load, e.g. temperature of the loading area
- All important trailer data are available at any time* on the web-based telematics portal
- Trailer monitoring to prevent theft, with timely alarms and location tracking of the trailer*

Benefit from a cost-effective, contemporary and reliable* trailer telematics system. Kögel Telematics guarantees 24-hour monitoring* of your trailer and deliver data in real time*. Call up your data at any time* from our structured and user-friendly web portal or by using the "Kögel Telematics" app**. In addition we offer you the possibility to integrate all data into existing processes via the Kögel Telematics Connectivity.

"PosControl" shows the current position and route of your trailer*.

"EBSControl" provides information about the electronic braking system (EBS) such as mileage, speed, axle load, brake lining wear, etc.*

"TireControl" shows the tyre pressure and the tyre temperature*.

"TrailerControl" shows the current* coupling status, the opening state of the doors and the battery status*.

"TempControl" helps to monitor the temperature inside the refrigerated boxvehicle and continuously monitors and documents the cooling chain*.

*depending on the transmission rate and technical requirements.

**available for free from App Store and Google Play.

ROAD SAFETY AT ALL TIMES!

KÖGEL FULL-SERVICE**
