

Press release

Comtrans 2019 – Kögel presents its Russian portfolio

Burtenbach, 31. July 2019

- **Kögel shows off two trailers in Moscow**
- **Extended services for trailers**

At this year's Comtrans from 2nd to 7th September 2019 in Moscow, Kögel will show off the NOVUM trailer generation – awarded the "Trailer Innovation 2019" industry prize – with the motto "Innovations made for you! – Kögel NOVUM: Light & Strong". At Kögel's stand no. 360 in Hall 13, Pavilion 3, trade fair visitors can look forward to finding out more about the best-selling NOVUM generation Kögel Cargo and the Kögel Tipper Trailer. Kögel is a well-known vehicle constructor in Russia, so the exhibits are naturally "made in Russia" with a Russian PTS-number. In addition to the Kögel Trailer Axle KTA, an enhanced service offer for trailers awaits Kögel customers.

The NOVUM-generation Kögel Cargo

The highlight of the trade fair stand is the new NOVUM generation Kögel Cargo. This Kögel best-seller is ideal for use in eastern European domestic transportation. The Kögel Cargo has the optimised external frame profile and improved body that characterise the NOVUM generation. As well as making the Kögel Cargo even more robust, these features simplify handling in daily use. In addition, the NOVUM generation Kögel Cargo benefits from extensive standard equipment, including the Kögel Trailer Axle KTA and an extremely high degree of individualisation. This means that it can be adapted in line with the individual requirements

Press release

of each forwarding company. With a low tare weight starting at 5,920 kg in the basic version, it's extremely cost-effective to drive.

Kögel 3-axle Tipper Trailer

The second fair exhibit is the Kögel 3-axle Tipper Trailer. The exhibition piece has a 24 m³ loading volume, a 4-mm-thick floor, made of tempered Hardox 450 steel, side walls made of a highly wear-resistant, 5-mm-thick aluminium sheet, and a back wall made from the same highly resistant material with a thickness of 7 mm. This combination is optimally suited for daily use in practice with rubble, gravel, and aggregates of all kinds. Compared to a Kögel tipper trailer with four-millimetre-thick steel side walls and a four-millimetre-thick steel back wall, the new aluminium side walls and back wall enable a saving of up to 430 kilograms in tare weight.

Kögel KTA trailer axle

The third exhibit at the Comtrans is the Kögel Trailer Axle KTA. This is a standard feature for many variants of the Kögel Cargo, Kögel Light^{plus}, Kögel Cool – PurFerro quality and Kögel Box product ranges, along with various chassis. The low-maintenance axle is perfectly tailored to Kögel trailers, and further improves the driving properties.

Kögel service

Further highlights at the stand include the expanded service offer for trailers, including financing, full service, breakdown service, and telematics. Kögel Finance, for example, will offer financing solutions that ensure outstanding liquidity, with hire purchase and leasing opportunities with special trade fair conditions for the exhibited products. Other appealing fair offerings include the Kögel Full Service and Kögel Telematics packages.

Kögel is one of the leading trailer manufacturers in Europe. Since it was established in 1934, the company has manufactured more than 550,000 trailers. With its commercial vehicles and solutions for freight-forwarding companies and the construction industry, the company has been providing 'Made in Germany' engineering quality for more than 85 years. During this period, it has maintained its passion for transport and innovation, enabling it to offer proven, long-lasting added value to freight-forwarding companies. The company headquarters and main production facility of Kögel Trailer GmbH are located in the Bavarian town of Burtenbach. Kögel also has factories and offices in Ulm (Germany), Duingen (Germany), Chocen (Czech Republic), Verona (Italy), Kampen (Netherlands) and Moscow (Russia).
