

Press release

Kögel to show two exhibits at Transport Compleet Gorinchem 2019

Burtenbach, 22 August 2019

- **Ronald Kroesen, director for Benelux, Arjan Stolk, regional sales manager for the Netherlands Dirk Boer, used vehicle manager for Benelux and Mark Engelen, director of Key Account Management for north-western Europe will be advising on site**
- **Kögel dealers Truck & Trailer "door Wensink" (north-east Netherlands) and Gomes Trailers (north-west Netherlands), will also be represented at the fair stand**

Kögel is presenting two trailers at the Transport Compleet fair in Gorinchem from 3rd to 5th September, 2019. Once again, Kögel's motto for the exhibition is "Innovations made for you! – Kögel NOVUM: Light & Strong". The Kögel Cargo Rail of the NOVUM generation will be on show at Kögel stand, G108. Outside, fair visitors will be able to get an impression of the Kögel Port 45 Triplex container chassis, which now boasts an even lower weight.

Kögel trailers at Transport Compleet Gorinchem 2019

The NOVUM-generation Kögel Cargo Rail

Kögel will be showing off the NOVUM generation Kögel Cargo Rail, which was first presented at transport logistic 2019, at its stand at Transport Compleet. This rail-loadable variant also has the optimised external frame profile and the improved body that characterises the NOVUM generation. As well as making the Kögel Cargo Rail even more robust, these features simplify handling in daily use. In addition, the Kögel Cargo Rail of the

Press release

NOVUM generation has an impressively high level of customisation possibilities, and can thus be adapted to the specific requirements of forwarding companies. With a low tare weight starting from 6,350 kg in the basic version, it's extremely cost-effective to drive.

The Kögel Port 45 Triplex container chassis

The second fair exhibit is a lightweight semi-trailer container chassis with a central extension. The Kögel Port 45 Triplex made its début at IAA Commercial Vehicles 2018. In the meantime, Kögel engineers have fine-tuned the chassis for an even lower tare weight. With a tare weight of just 4,450 kg in its basic form, a technical gross weight of 41,000 kg and a fifth-wheel load of 14,000 kg, the container chassis is ideal for transporting 20, 30, 40 and 45-foot ISO containers as well as 40 and 45-foot high cube containers.
