

KÖGEL

BECAUSE WE CARE

KÖGEL TRAILER WORLD

As one of the leading European trailer manufacturers, Kögel sees itself as having a responsibility to design transport and logistics processes in a more environmentally and climate-friendly manner in consultation with politicians and our customers. The company's guiding principle **"Economy meets Ecology – Because we care"** is a product promise: Kögel supports all customers with outstanding expertise, in-depth industry knowledge and, above all, durable and ecologically and economically sustainable products. Kögel supplies the right sustainable vehicle solution for every application, be it volume- or payload-sensitive or temperature-controlled transport, or trailers and swap bodies for combined transport or bulk goods.

- ✓ Reduced CO₂ emissions*
- ✓ Higher payload*
- ✓ Higher efficiency

KÖGEL TARPAULIN TRAILERS**SUCH AS KÖGEL CARGO**

The Kögel Cargo is the reliable partner for logistics companies who value a sturdy, durable trailer – but who also don't want too much on the scales in terms of its weight. The Cargo is available in a wide variety of frame and body variants and is therefore the tailor-made answer for any fleet operator.

Other variants of tarpaulin trailers:

- Kögel Light^{plus}
- Kögel Mega
- Kögel Euro Trailer
- Kögel FlexiUse

Further information and product details can be found here:

**KÖGEL COOL – PURFERRO QUALITY****KÖGEL COOL – PURFERRO QUALITY**

The Kögel Cool – PurFerro quality is designed specially for the specific market requirements of refrigerated transport. The Kögel Cool is characterised by high stability and durability, thanks to user-friendly, low-wear aluminium floor and sandwich panels, which are resistant to stem diffusion, with a steel top layer from our in-house competence centre. Thanks to numerous special equipment options, it can be modified to customer preferences and country-specific requirements.

Further information and product details can be found here:

**KÖGEL BOX****KÖGEL BOX**

The Kögel Box dry freight box body effortlessly masters the wide variety of transport tasks in the forwarding industry and withstands any ramp and forklift truck with its reinforced rear frame. Our trailer features a robust and durable body, as well as innovative elements for goods transport and load-securing.

Other variants of Kögel Box:

- Kögel Box PurFerro quality

Further information and product details can be found here:

KÖGEL CONTAINER CHASSIS

SUCH AS KÖGEL PORT 45 TRIPLEX

Kögel Port 45 Triplex is a flexible container chassis with a front, centre and rear extension. It is one of the lightest container chassis on the market, designed for a technically feasible gross weight of 41,000 kg, despite its low tare weight. A real payload giant that enables maximum cost-efficiency in intermodal transport!

Other variants of the container chassis:

- Kögel Port 20 Tankplex
- Kögel Port 40 Light
- Port 45 Simplex (rear extension)

Further information and product details can be found here:

KÖGEL DEMOUNTABLE SYSTEMS

SUCH AS KÖGEL SWAP

Effective transport requires a flexible concept. Thanks to a wide variety of equipment options, the Kögel Swap swap body is suitable for universal use. The swap body is extremely easy to exchange and enables quick swap cycles. In addition, customers benefit from excellent handling when loading and unloading, for example, with the practical sliding tarpaulin on the Swap trailer, which is optionally available with drop sides as well.

Other variants of demountable systems:

- Kögel Combi
- Kögel Combi centre axle trailer

Further information and product details can be found here:

KÖGEL TIPPERS

SUCH AS THE KÖGEL TIPPER TRAILER

Kögel tipper trailers are noted for low maintenance costs, good driving characteristics and high stability. Available with a steel and steel-aluminium tipper body, it is the ideal transport solution for bulk material of all kinds. The low tare weight of the steel-aluminium combination enables increased payload and saves fuel, as well as reducing CO₂ emissions.

Other variants of the tipper trailer:

- 3-axle, 24 m³/27 m³ with fully insulated trough
- 2-axle, 24 m³/27 m³ with fully insulated trough
- 2-axle/3-axle 24 m³/27 m³

KÖGEL TRAILER AXLE – KTA NOVUM

The KTA NOVUM is the product of outstanding engineering. It combines the highest-quality, premium components with an innovative overall concept, which forms the backbone of the NOVUM generation and, above all, enables an extremely long service life. The low overall weight of the KTA NOVUM reduces fuel consumption, which leads to lower CO₂ emissions.

- ✓ Increased payload
- ✓ High durability
- ✓ Rail-loadable version available

Further information and product details can be found here:

KÖGEL TELEMATICS

Full control over your freight: As of now, all Kogel models are equipped with Kogel Telematics as standard. This intelligent system helps you maintain an overview of your trailer – including a comprehensive alarm function. Operating and maintenance data is documented with precision, which optimises your transport and increases cost-efficiency throughout the logistics process. True to our motto, “Because we care”, Kogel will put together the perfect telematics package for you and your trailer.

- ✓ Maximum cost-efficiency
- ✓ High transparency
- ✓ Reliable alarm notifications
